## A NEW DRUMMER LAW.

A bill to amend the present ineffective "drummer law" has been introduced in the Assembly. It requires all solicitors to take out a State license, to be issued by the Treasurer.

A license for one year is to cost \$300; for six months \$175. The penalty for soliciting without license is to be \$100, one-half of which goes to the informer. The bill has gone before a committee of the lower House.

Senator Schofield says it is proposed to amend this bill so that State licenses can be issued by the Sheriff of any county in the State, the amount of the license to go into the general fund of the county in which it is issued, allowing the Sheriff a commission of ten per cent. on all licenses issued. The Senator thinks the bill, with the proposed amendments, will result in an annual income of from \$15,000 to \$30,000 to the various county treasuries.

This bill, if amended as proposed, will make a drummer law that will be enforced. By giving the informant half the fine, and making it an object for the Sheriff to issue the license, eternal vigilance is assured. Let no guilty drummer escape.

## TO-MORROW WILL TELL THE STORY.

The Asylum bill is expected to come up in the Assembly to-morrow for a final vote.

This bill calls for an appropriation of \$80,000, to build an insane asylum on the State grounds two years ago selected, and since improved, for the purpose. The passage of the bill has been fully proved to be for the best interest of the State, and for the welfare of the insane maintained at the State's expense.

The whole strength of the opposition to the bill is believed to be derived from "the Sack" of Dr. Clark, of Stockton.

The contest is between State and "Sack."

To-morrow we shall see what considerations are most influential with Assemblymen; considerations of State pride and economy or considerations of coin.

## EDITORIAL NOTES.

Large prices are sometimes paid for old coins. The Sun gives the following dates of American coin, on which there is a premium: "1793, 1796, 1799, 1804, 1806, 1809, 1811, 1823, 1737 large, and 1856 small. These dates are for copper coins, and they all command a premium corresponding to the quality of the piece. In silver money a silver dollar previous to 1800 is worth from \$5 up; a dollar of 1793 is worth \$50. The first American money was the pine tree shilling, coined in 1652. For fifteen years they were all coined under the same date, so if a man has a pine tree shilling he don't know when it was made. There are a great many in this part of the country, so they are worth but about four or five dollars."

The plan of having meals served at private houses, ready cooked to order by a caterer, is growing in popularity in New York. A waiter brings the dishes, eatables, etc., at the hour designated, and returns to remove the dishes. Everything is served hot. The viands are transported in tin vessels with lamp heaters. "The lowest price is \$7 per week for each person, two meals a day. This includes at least two kinds of meat, or poultry, entrees, and dessert for dinner, with frequent changes in the bill of fare. If a lunch is required we serve that with the other meals for \$3 per week."

Fernando Wood, who died yesterday, was born in Philadelphia in 1812. He was of Quaker parentage. He began life as a cigar-maker, rose to be a ship-owner, and sank to the level of a Copperhead politician. He was first elected a member of Congress from New York in 1841, and had served a number of terms, dying an M. C. He was Mayor of New York at the breaking out of the war, and is famous for his recommendation that New York

should secede and become a free city. His opposition to the war gained him a widespread notoriety.

Capt Eads is reported as saying: "The Panama tide-water canal can never be completed. De Lesseps, however, unless the United States should absolutely interdict it, will push work on his canal as long as a cent can be had. I do not mean to say that a canal could not be constructed across the Isthmus of Panama, but that it would never pay for the amount of capital invested. Even if the Panama route were the only one, the canal would never pay. The Nicaragua project will never be pushed."

A Washington dispatch says that the friends of Stanley Matthews have but little hope now of his confirmation as Justice of the Supreme Court. Only two members of the Judiciary Committee are known to absolutely favor his confirmation, and four of the remaining seven members, namely Thurman, David Davis, Bayard and Edmunds, are unalterably opposed to it.

If anything is to be done with the State Fair it must be done at once. The petitions are not being signed. Some one ought to canvass the county to get the sentiment of the tax-payers, and he ought to be paid for his work. A fund could easily be raised for the purpose. The people of Reno will make a great mistake if they allow this institution to be closed.

An "outrageous falsehood" in Boston is a "square-toed lie" in Eureka. This language gets more vigorous as one travels from east to west, until on the Pacific coast he finds journalists diving clear down to the bottom of wells of English undefiled to get words of Saxon purity and strength, such as "lie" and "liar."

The Boston Traveler is at sea in regard to the geography of Nevada, as this extract shows:

Carson, Nev., has been swept out of existence through the bursting of the dam of the Franktown reservoir. No lives were lost, and not a house to be found.

The N. Y. Sun looks with great disfavor upon the project for a world's fair at New York, perhaps because Gen. Grant is at the head of it. The Sun says: "The speculation is evidently at the point of death. Let it go on and die, and be buried out of sight."

Senator Powning's bill providing for the erection of an insane asylum on the State grounds at Reno, has been made the special order of business in the Assembly to-morrow afternoon at two o'clock. It is to be considered in Committee of the Whole.

The bill of Dr. Asa Clark, of Stockton, for the care of Nevada's insane, was: For one year, \$7 a week; for two, four or six years, \$5 50 per week, payable monthly.

There is much excitement in England over reports about secret operations of the Land League. It has been rumored that a plot had been discovered to blow up Windsor Castle.

Samuel Lane recently died at the advanced age of 123 years, having been born in Africa in 1758, according to his own recollection. He was an Ohio man at the time of his death.

Garfield is described as looking completely worn out. He will not go to Washington until March 3. He has lately received as many as 264 letters in a single day.

Mr. and Mrs. McKee Rankin will soon bring out Joaquin Miller's new play called "Forty-nine." It will be first put upon the stage in Haverly's theater.

The Pennsylvania Legislature has taken twenty-seven ballots in the attempt to elect a U. S. Senator, but has not yet succeeded.

Forty thousand valentines went through the San Francisco postoffice yesterday, 6,000 less than the number sent on the same day last year.

Nebraska was yesterday visited by another heavy snow storm. The blockade caused by the previous storm had not been raised on some roads.

Sergeant-at-Arms Wallace is said to be keeping the sack for Dr. Clark. If this charge can be fixed on him, his removal will be an order.

The forthcoming report on the geology of the Comstock, by Clarence

King, will be very encouraging to stockholders.

Up to last night, only ten jurors had been secured to try Killoch. Every day a venire of 100 jurors has been called.

The Enterprise pays the Salt Lake Tribune the compliment of running its long editorial on Jay Gould's plans, as original.

Germany is about to undertake to keep the Sultan from making war on Greece.

The voice of the Pall Mall Gazette is against the Boer war.

An extra session of Congress is considered not improbable.

## ROUND ABOUT.

There are now 1,107 patients in the California Insane Asylum at Stockton.

Mr. Garrard, the new Warden of the State Prison, has assumed the duties of his office.

It appears that twice as many married as single men are employed in the Comstock mines.

George Parrott, of Paradise, was to ship 200 cattle at Winnemucca yesterday for San Francisco.

Two cases of death among children from the drinking of lye which mothers had carelessly left within their reach, have lately occurred in Humboldt county.

The Greenville Bulletin says: "C. H. Aaron, who was last week reported sick with varioloid, is rapidly improving, and there have been no new cases. It is safe to presume that there will be none."

Sheriff Fitch, of Elko, tells the Silver State that he does not want the Salary Act repealed, but he wants the counties to pay for transportation of prisoners, which the Elko Commissioners refuse to do.

The age of the oldest convict in the Nevada State Prison is fifty-three years, and the youngest is fifteen years old. Among 150 prisoners confined there are forty-five murderers.

The papers in the case of Dr. Bishop, of Eureka, vs. the E. & P. Railroad have been filed. He prays for \$25,000 damages for personal injuries sustained, and \$1,500 for loss by professional services.

In Churchill county during the winter season ranchers and dairymen can usually secure a good harvest of ice, from four to eight inches in thickness, but this season there has been none over one and a half inches thick.

Says the Salina Index: The soil of San Benito county claims the honor of having sustained the first American flag of conquest ever unfurled to a California breeze, General Fremont having planted the United States flag on Gabilan Peak in March, 1846.

Wm. Ross of Lake county killed six deer and two panthers in one day's hunt among the hills near Lakeport, a few days since. One of the panthers weighed 400 pounds, while the smaller one pulled down the scale to the tune of 375 pounds.

Two miners, who were prospecting in an old tunnel, near Auburn, recently had a curious adventure. While at work in the tunnel, which is over 200 feet long, they struck an old shaft, 30 or 40 feet deep, which was filled with water. The water rushed out with great force, and carried them out of the tunnel, and down a bank 30 feet in height, bruising them badly.

Adolph Sutro authorizes a denial of the report now circulating through the press that he is about to leave for Europe. He says he has no intention of leaving for several months. Speaking of his famous tunnel, he is of the opinion that it will make good developments of ore when pushed into the heart of Mount Davidson.

## Artificial Respiration.

Prof. Fort, in a paper on artificial respiration read before the French Academy, states that he was enabled to restore to life a child 3 years old 3 1/2 hours after apparent death, by practicing artificial respiration on it for four hours. Another physician reports a somewhat similar case. He re-animated a person nearly drowned after 4 hours artificial respiration. The person had been in the water ten minutes, and the doctor arrived an hour after asphyxia.

## Big Dictionaries.

People who imagine Webster's Dictionary to be a big book, should walk around what has already appeared of Grimm's German Lexicon. Webster's whole work takes 1764 pages. The German has got only to the letter L, and has already used up 12,974 pages. Webster spreads the first letter of the alphabet over ninety-nine pages. Grimm uses 1047 pages for the same letter. Little's great French Lexicon takes 273 pages, and Vieira's Portuguese Dictionary has 696 pages for the same letter.

## A Want of the Age.

From the Rochester Democrat. A liveryman thinks the great want of the day is young men with three arms. He vaguely says it would lessen the number of sleighing accidents.

## AGRICULTURAL ITEMS.

If eggs are the only object, the Spanish or Leghorns are to be preferred, but if the profit is to be derived from marketing also, the Brahmas should be selected.

In Spring valley, San Diego county, the warm weather of the past week has made the newly-sown grain start up quick in moist land, and the grass and weeds have begun to look thriving.

Peter Baker, of Linden, San Joaquin county, has a wheat field near Peters that is one of the finest in the country. It contains 600 acres, and the grain has already attained a height of twelve inches.

The Chinese and Japanese excel other nations in the culture of early vegetables. This arises from the fact that they use only liquid manures, hence the growth of the plant is rapid, and the vegetables are brittle and tender.

J. Winchester at Columbia, says: The Chinese sand pears and the Keifer Hybrid seedling made the largest and most vigorous growth from grafts that I have ever seen on any fruit tree. Some of them are more than an inch in diameter at the cleft, and with numerous laterals grew fully eight feet. These growths, with their large glossy leaves, justify all that has been represented of these famous pears.

A San Jose farmer says that the present prospects of the surrounding districts are the best he has ever known, and that so far as fears of the yield being affected by the rains regarding farmers in seeding down are concerned, he said that the largest crop and the best wheat he had ever harvested came from wheat sowed in the last days of February.

## Presence of Mind.

Three young girls sliding down a hill in Boston the other day saw a sleigh and team in front of them, and a collision seemed imminent. Fortunately one of the young ladies had the presence of mind to smile, and the team at once ran away, thus probably avoiding a loss of life.

JOTTINGS.

—A yellow Newfoundland dog is in the pound.

—Joe Price furnishes a nice French claret with his dinners.

—What will you wear at the A. Q. B. ball Thursday night?

—The name of the man who beat James Duxbury was LeRoy, not Royce.

—A reward of \$20 is offered in the fifty cent column for the recovery of a missing valise.

—The masquerade ball on Washington's Birthday will be well attended by the best people, judging by the tickets being sold.

—The sensation of being unexpectedly bitten in the leg by a little yellow dog is peculiarly provocative of profanity.

—A stranger was reported robbed of a watch and chain at the station last evening, but no particulars have been learned.

—Very few valentines passed through the postoffice yesterday. The business done in them here was smaller than ever before.

—It has been months since Reno was last visited by such a "Washoe zephyr" as is whistling down the chimneys this afternoon.

—Justice Borman, of Verdi, now presides in the place of Justice Young, who continues seriously sick, and is reported no better to-day.

—The notices of I. Frederick will be read with interest. His reputation for selling fine goods at low prices, is invaluable to a business man.

—The White House has recovered the overcoat stolen on Saturday night. Abrahams found the thief and made him restore the coat. The thief has not been arrested.

—The meadows were much improved by the deposits left by the recent flood. John Boynton estimates that his land has thus increased in value a thousand dollars.

—The ladies of Trinity church are hard at work upon their entertainments. They are pressing the best talent of the town into service, and are making some strong combinations.

—A good job of work has been done on the fire cistern at the depot. The walls were raised by brick work to a level with the track, and a new plank covering put over the whole.

—The K. of P. excursionists returned on a section of the lightning train this morning, arriving about 10:30. They were a little crowded coming up. All seemed well satisfied with their trip.

—Mrs. Frank White, of Honey Lake, accompanied the remains of her deceased husband on the eastbound overland last night. Their destination is Romulusville, Seneca, New York. The inhabitants of that section evidently believe in classical names.

—Patrick Bell this morning pleaded guilty to the charge of being drunk and disorderly preferred against him last Friday, and was released upon his own recognizance. He had been punished enough by three days' imprisonment. He was re-arrested this afternoon on the same charge.

THE CHINATOWN RAID.

The Simple Truth of the Whole Affair.

A Reply to the Morning Mongolian Organ.

Rumors were in circulation on Sunday that "601" had been about on the previous night, but nothing definite and trustworthy could then or yesterday be learned in regard to any operations of that organization. Indeed, many who professed to know, declared that the vigilantes did not turn out at all. The fact that there was some disturbance in Chinatown was accounted for by a story that Watchman Ross had got into some difficulty in Chinatown and had been driven out by the Chinese with pistols. This story was rather at the expense of Ross, who it now appears, did nothing to cause any disturbance, but was the object of attack by a gang of Chinamen outside of Chinatown, while attending to his duties as a watchman. The facts of the affair, related by a trustworthy eye-witness, are substantially as follows:

On Saturday evening six or seven respectable citizens of Reno, who may or may not have been of the "601," found occasion to make an expedition in the interests of decency and good morals to a cabin in the extreme western part of town, from which Indians were suspected of obtaining liquor. Having transacted their business in that direction, which consisted in the delivery of

AN IMPRESSIVE WARNING NOTICE to the suspected offender, the party wended their way to Chinatown to take a look into the opium dens. White men and boys were known to frequent those dens, and the party determined to do something to break up the evil. The visiting party wore masks, and their advent in the Chinese quarter raised no little consternation. The Chinese mistook them for a band of robbers, and were at first overcome with terror. The party proceeded quietly to a well-known opium den and found there a white boy, the son of respectable parents. The youth was greatly alarmed when discovered, and falling upon his knees he implored his captors to spare him for God's sake, vowing that he never would touch opium again as long as he lived. The captive was assured that no harm would be done him; that the mission of the expedition was to save, not to destroy. The young penitent then led the way to all the other opium dens of which he knew, and gave the secret signal for admittance. In most cases the doors of the dens were promptly opened and the visitors permitted to inspect the interior of the apartments.

NO VIOLENCE WAS DONE to anybody and not a door was forced. Besides the boy mentioned, no other white person was found in Chinatown. The party warned all the China opium sellers that if they sold any more opium to whites they would be severely punished. The white invaders were about to withdraw from the Chinese precincts, when the Chinamen commenced pouring out from every shanty and cellar in the place, until fully a hundred had mustered on Confucius avenue. The Chinese then commenced firing pistols in the air, in order to intimidate the supposed robbers. The white men stood still and laughed for a while, and then leisurely proceeded homeward. Then it was that stalwart Watchman Ross, going his weary round of duties, in the exercise of that eternal vigilance for which he is noted, encountered an armed band of Chinamen. After the whites had withdrawn from Chinatown, the melodious tom-tom beat all hands to quarters and

FIRED THE MONGOLIAN HEART. A charge was made in pursuit of the retiring invaders. The Mongols surprised Ross by the unexpectedness of their onslaught. The foremost Celestial made for him with an axe, and single-handed and alone the watchman prepared to do battle with a hundred men, and to drive them back to their odoriferous fastnesses on the river bank. Yet his prudence did not desert him in the heat of the conflict, and he yelled lustily for help. His call was heard by the masked party and they ran back to his assistance. At sight of the returning white men, the Chinese retreated precipitately to their dens. This ended the engagement. The story that the Chinamen ran Ross out of their quarters and sat upon him, was entirely without foundation.

THE CHINESE VERSION. This morning a reporter visited Chinatown and conversed with prominent

aliens upon the occurrences of Saturday night. They confirmed the account above given. The Chinese merchants say that the masked visitors were mistaken for robbers, and hence it was that the Chinese fired pistols to frighten them away. The pistols were all pointed upwards; not a shot was fired into the party. The whites fired no shots. The Chinamen all say that no violence was done by the whites, that they broke open no doors and hurt nobody. Three white men visited Chinatown yesterday to smoke opium, but were refused admittance to the dens. Two white women also appeared there on the same errand. The Chinese now understand that the "601" have worthy objects in view, and are not thieves and robbers. They say they will hereafter shoot any white opium-smoker who attempts to force his way into their dens. The Journal of this morning came out as

THE ORGAN OF THE CHINESE, giving a most incorrect and yellow-colored account of the whole affair. The Journal's statement that the "Regulators smashed open doors of China stores and other places, where no opium was ever smoked, and kicked things around generally," is entirely untrue, and is contradicted by the Chinese themselves. The Chinese did not "empty their revolvers into the crowd." The "mob" [of citizens] did not scatter and run, "sneaking through the gardens." The affair is not a "burning disgrace to Reno." The legal adviser of the Chinese, the Col. Bee of Reno, who has recommended them, in the event of a similar intrusion, to "kill as many of them [601] as possible," has let his zeal outrun his discretion. The respectable white citizens, sober, God-fearing fathers of families, who risk the dangers of a raid upon Chinatown in order to rescue young boys from the vice of opium smoking—such men do not deserve to be shot, and it is surprising that any newspaper conducted by decent white men should say so. The GAZETTE is a firm friend of law and order, and believes that the law should always be allowed to take its course, when it finds any course to take. But when the law seems powerless to check such flagrant abuses in our midst as opium-smoking and selling whiskey to Indians, the GAZETTE will never denounce decent citizens who interfere to stop such vicious practices, as deserving of arrest and punishment; still less advise the Chinese to "kill as many as possible."

Selling Whiskey to Indians. RENO, Feb. 13, 1891. Editor Gazette:—I hereby certify that an Indian told me, in presence of another party, that a woman on C. Bonotte's premises sold liquor to the Indians, and set the bottle outside, and the Indians came and got the liquor; and that I gave the information to the GAZETTE, not out of malice or ill-will to the parties, but that they might take warning, for this thing has got to stop or all those engaged in it will be turned over to the U. S. District Attorney. There is a watch out, and was he unto them who are caught. I intend to make it my special business to stop it.

CAPT. FRANK COOK. In reference to the statement published in yesterday's GAZETTE concerning the alleged sale of whiskey to Indians on his premises, C. Bonotte, proprietor of the French Hotel, called to-day at the GAZETTE office, and denied the whole story. The matter is being investigated.

Cock-Fighting at Carson. Considerable interest is manifested in the forthcoming cocking match at Carson between a squad of birds owned by Sweeney & Allen and a similar batch belonging to Con Mooney of San Francisco. It is stipulated that that thirteen bouts will be fought for \$100 a bout, and \$1,000 will be laid on the odd bird.

If you want to save money, go to I. Fredrick and buy your watches, clocks and jewelry, where there is no advantage taken. feb15

Be Careful, Girls. Girls should be careful not to drop notes in such public places as Reform Club hall. Here is one that was picked up there:

RENO, 1890. MINKIE:—Who is that girl that set with you Friday she wears a grey dress you tell her for me that she is a darling. I think her name is Lottie but I don't know answer this and let me know about it. tell me what she says.

HIRAM R. All watches and jewelry repaired or made to order, is guaranteed as represented at I. Fredrick's. feb15

Trains to be Running in Two Weeks—Bodie Travel Shortened Twelve Hours.

Speaking of work on the Carson & Colorado Railroad, the Lyon County Times of Saturday says: The bridge across the Walker will probably require a week to build thereafter the Walker/Lake Indian Reservation House be reached. When this point is attained, one freight and one passenger train will be run over the road daily, and the Belleville, Aurora and Bodie stages, which now leave from Virginia and Carson, will start from the Reservation House and reach their destination twelve hours sooner than now. Two passenger trains complete have arrived for the new road. The cars are only one foot narrower than the broad gauge cars, and contain two rows of double seats, which will comfortably seat two persons. The inside of the cars are painted with Eastlake paint of a cherry-red color. Inside the cars are perfect marvels of elegant neatness. The wood used is not the same in all of the cars. In some a South American wood of a light color is used, which in time will darken so as to resemble black walnut; in others the panels and all the inside work are in black walnut. Many new features have been introduced in these cars, and the plans, drawings and specifications were prepared by Mr. Yerington himself. The baggage, express and smoking compartments are perforated, and reversible by a new device.

They Must Come West to See Trees. J. H. Moulton, of Sanford felled a pine tree a few days since which made nine logs, that, taken together, measured 127 running feet, the smallest log being eight inches in diameter at the top. The whole tree scaled about 1,500 feet.—Saco (Maine) State Democrat.

The Eastern papers are republishing this item, thinking that it describes an immense tree. Our Sierra Nevada lumbermen will laugh at this. They would not think of cutting a tree that would make less than 1,500 feet of lumber. The trees cut on the Sierra will yield an average of 3,000 feet of lumber each. Pines six feet in diameter at the base are not rare on the mountains. Such trees will yield about 10,000 of lumber each. Pines have been cut on the western slope of the Sierra measuring as much as nine feet in diameter at the stump.

Cattle Killed on the Cars. Says the Silver State: "Yesterday some fifteen cars of cattle went by here from Tacoma. Some of them were killed in the cars and a number of them were down when they passed here, and liable to be tramped to death. The result was that they had to be unloaded at Mill City. Great care and judgment is necessary in loading cattle. Careful shippers always get those of a size and as many as possible in a car, so that they cannot lie down and be trampled to death by the others. Experienced shippers say there is more danger in not getting enough cattle in a car, than of getting too many."

Mining Stocks. Alta sold as high as 2.20 yesterday afternoon after the Board. This morning it sold at 2, and Hale & Norcross at 4.10. Other quotations this morning show little change: Ophir 4.90, Mexican 5, Gould & Curry 3 1/2, Benton 2.30, Sierra Nevada 6 1/2, Benton 60, Potosi 2.10.

Personal. Mrs. Garrard and daughter went to Carson this morning. Mr. McMahan returned from his trip Bodieward last night.

BY TELEGRAPH.

The Great Boat Race.

LONDON, Feb. 14. The race between Hanlan and Laycock over the Thames championship course, for the championship of England, the Sportsman Challenge Cup, and £1,000, came off this afternoon, and was won easily by Hanlan by about four lengths. There was little betting on the race. The result was regarded as a foregone conclusion. Three to one on Hanlan was freely offered. Hanlan and Laycock will visit Westminster Aquarium to-night. They left for their respective homes shortly after the race. Laycock, although rowing well and strongly, had no chance from the beginning. The weather was cold and rainy, yet the tow-path along the river bank was thickly lined with spectators.

Colley's Disastrous Defeat.

LONDON, Feb. 11, 1890. Special indicate clearly that General Colley was defeated in his fight with the Boers and narrowly escaped to his camp under the cover of darkness, and that the Boers might have annihilated him had they pushed up their advantage. Colley left all his wounded. The Boers, by superior marksmanship, inflicted a loss utterly disproportionate to their own.

The Famous Opera Singers.

Annie Louise Carey and Clara Louise Kellogg are beyond question the most famous opera singers of modern times. In fact they have been universally acknowledged to be the leaders of their profession, as well as ladies of large experience and particularly good taste. They have probably traveled more extensively than any ladies on the stage, and, as a consequence, have had excellent opportunities of judging of the merits of different countries and their productions. It is certainly a very great credit to California and the balmy semi-tropical climate of the Pacific, to have had them pronounce Slava's Yosemite Colosseum by far the best they have ever seen in any country. For sale by Osburn & Shoemaker.

Shiloh's Consumption Cure. This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while its wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 50 cts. and \$1.00. If your Lungs are sore, Chest or Back lame, use Shiloh's Porous Plasters. Price 25 cts. Sold by Osburn & Shoemaker Drugists, Reno, Nevada.

Fees of Doctors. The fee of doctors is an item that very many persons are interested in just at present. We believe the schedule for visits is as follows: would tax a man confined to his bed for a year, and if he died of a daily visit, over \$1,000 a year for medical attendance alone! And one single bottle of Hop Bitters taken in time would save the \$1,000 and all the year's sickness.—Ed.

SHILOH'S CATARRH REMEDY. A marvelous cure for Catarrh, Giphtheria, Canker mouth, and Headache. With each bottle there is an ingenious nasal injector for the more successful treatment of these complaints without extra charge. Price 50 cts. For sale by Osburn & Shoemaker, Drugists Reno. nov7-eod-d&w

Answer this Question. Why do so many people we see around us, seem to prefer to suffer and be made miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Coming up of the Food, Yellow Skin, when for 75 cts we will sell them Shiloh's Vitalizer, guaranteed to cure them? Sold by Osburn & Shoemaker, Drugists, Reno, Nevada.

For Sale. Three blocks, twelve lots in each block, all in the highest state of cultivation of any land in Nevada. Each block contains 144 choice fruit trees, which will come into bearing next year. These blocks lie between Bishop Whitaker's School and the business part of Reno, three blocks from the railroad. Apply to Stephen Conner. feb9-1m-d&w

**A Workman's Terrible Position.**  
The sawdust of a mill at Victoria Harbor is burned in a kiln eighty feet high made of boiler iron. Carriers, on an endless chain, convey the refuse to a door forty feet from the ground and dump it into the fire within. The other day an employe named Payne, who looks after the carriers, got on one of them to go to his place at the door above. Everything went all right until he got close to the doors, when he found that his foot was caught and he was unable to extricate himself, and that he was gradually going to meet a sure and horrible death. He managed to attract the attention of some of his companions, who stopped the machinery just as he was entering the fiery furnace. He was severely scorched before he was rescued from his perilous position. *Toronto, (Ont.), Globe.*

**A Good Skater.**  
From the Baltimore Sun.  
Mr. W. L. Condon, who made quite a reputation in Baltimore as an athlete by lifting dumbbells, etc., accomplished a notable skating feat one day last week. He started from North East, Cecil County, skated as far as Turkey Point, up Elk River to Elkton, and returned to the starting point in three hours, the distance being thirty-five miles. The first seventeen miles he made in fifty minutes.

**The Champion Boy For Corn.**  
Stillmann B. Allen of Boston has just distributed \$300 in prizes to Maine boys under eighteen years of age who have raised the Indian corn on one-eighth of an acre in the past season. More than 600 boys in all parts of the State competed, and the first prize, \$300, was awarded to Frank E. Small of Stockton, who raised 2,246 pounds.

**SUMMONS.**  
IN THE DISTRICT COURT OF THE Second Judicial District of Nevada, in and for the County of Washoe, The State of Nevada sends to Mary Jane Hall, Greeting: You are hereby required to appear in an action commenced against you as defendant by S. C. Hall, as plaintiff, in the district court of the Second Judicial District, in and for the County of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this Summons (exclusive of the day of service), as served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a judgment and decree of divorce against the defendant and in favor of the plaintiff. The complaint alleges that the plaintiff and defendant were married at Hookest, in the State of New Hampshire, A. D. 1882, and lived and cohabited together until on or about the 28 day of August, A. D. 1879. That plaintiff was a true and faithful husband. That on the 28th day of August, A. D. 1879, at Reno, Nevada, defendant left plaintiff's bed and board and has ever since said time abandoned and refused to cohabit with plaintiff, all of which will more fully appear from the Complaint which is on file in the office of the clerk of said court at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the court for the relief demanded.

In testimony whereof, I, MARK A. RISH, have hereunto set my hand and affixed the seal of said court, this 12th day of November, A. D. 1880.  
MARK A. RISH, Clerk of the district court of the Second Judicial District of Nevada, in and for Washoe County.

**Boss Coffee, Tea Pots & Urns.**  
It is the Boss! Why? Because it produces Boss Coffee.  
It makes rich flavored Coffee! Why? Because all the aroma and food are retained.  
It beats them all! Why? Because it saves 100 per cent over boiled Coffee, which is not Coffee, but bitter water. Second—Because it saves 50 per cent over any other method of making Coffee. Third—Because it saves eggs and trouble of clarifying. Fourth—Because it makes Coffee as clear as red wine. Fifth—Because it takes only two minutes to make Boss Coffee.  
The Boss works as well on Tea, and saves 25 to 50 per cent.  
While Edison may furnish light to millions, the BOSS will securely give health to all who use it. Thousands have become dyspeptic and bilious from drinking boiled coffee or better water. (Boiled coffee is not coffee, but bitter water mixed with coffee particles). Stop drinking boiled coffee. Make your coffee as nature ordained, and restore your health. Many inventors have racked their brains to furnish the human family with a practical method of making coffee. At last the HUNTINGTON has been accomplished in the production of very cheap and simple Pots and Urns celebrated as the BOSS.

To Whom It May Concern—After thoroughly testing the BOSS COFFEE POT, we, the undersigned, fully believe the same as the best method of making Coffee we have ever seen. Besides saving eggs, it will save a large per cent. of the Coffee. It produces Coffee as clear as wine, which is much stronger, and has a more delicious flavor than any coffee made by any other process.

**YOUNG MEN**  
WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever aid at the altar of health and humanity. DR. SPINNEY will guarantee to forfeit \$500 for every case of Seminal Weakness or private disease of any kind or character, which he undertakes and fails to cure.

**MIDDLE-AGED MEN.**  
There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.  
Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice \$5.  
P. S. For private diseases of short standing a full course of medicine is sufficient for a cure. With necessary instructions, will be sent to any address on receipt of Ten Dollars.
